Mary Kenedy Little, Janie Gulledge.

**MR. GEORGE SINGLETON.**

(Correspondence of the M. & I.)

Mr. George Singleton, of Dover, N. J., located the first silk mill that was established in this state and if we are not mistaken the first one south of Maryland. The coming of Mr. Singleton has been a great blessing to many people in this section. And now Mr. Singleton is spreading out; he is offering employment to people from all sections of North Carolina. Children who cannot work to advantage in a cotton mill can work in the silk mill. In the silk mill there is no flying lint or dust to be sucked into the throat. It is a neat, clean business where women and children can make good wages.

We are glad that many fine people are coming to Wadesboro to find employment in Mr. Singleton's mill. Last Friday twenty-seven came in on one train.

Mr. Singleton's night school for his employees will be a great blessing to them, and his work in the amusement line is novel and new, but it will surely succeed in causing him to have all the help he can find work for. People do like to have some fun. "All work and no play" is not the right way in our life work.

**Box For Orphanage.**

Monday afternoon, Nov. 11th, the Woman's Auxiliary of Calvary Episcopal church will hold a meeting at Mrs. W. P. Parsons'. A box will be packed at this meeting to be sent to Thompson Orphanage, Charlotte, N.
